## SHANNON AIRPORT ACCESS ROAD IMPROVEMENT SCHEME

### PREFERRED OPTION

AN ROCHA IS FEARR

## INTRODUCTION / PROJECT BACKGROUND

### RÉAMHRÁ / CÚLRA AN TIONSCADAIL

The N19 National Road connects Shannon International Airport to all parts of the country and plays a significant role in international connectivity, which in turn increases prosperity to the Mid-West region, particularly tourism and exports.

The section of the N19 National Primary Route under consideration extends from Drumgeely Roundabout to Knockbeagh Point Roundabout. The proposed scheme is approximately 2.2 kilometres in length and comprises primarily of single carriageway cross section which has a number of deficiencies that require improvement works.

Clare County Council are working in partnership with Transport Infrastructure Ireland (TII) to develop a road scheme to improve the N19 between Drumgeely Roundabout and Knockbeagh Point Roundabout and provide a high-quality access to Shannon Airport.

The design process is being developed in stages with opportunities for the public to provide feedback. Currently the project is at Phase 2 – Option Selection and as part of this process a non-statutory public display is being held to inform stakeholders of the Emerging Preferred Option.
